

LS0 Lightbar Slim

Expand your Ketra experience with this sleek, new accent linear

A sleek, modular linear lighting system

- Suited for low-profile, linear lighting applications:
 - Under cabinet and under shelf
 - Media centers and bookcases
 - Toe-kicks and small coves
- Connect up to 24' of lighting in a single low-voltage feed.

Slim profile

System components

- Remotely powered by the 100–277VAC X96 Ketra controller
- Natively integrated with the Lutron HomeWorks system (Qsx processor, HomeWorks Designer 16.0 or greater)

Configurable for every job

The smallest Ketra luminaire

- Delivers the same powerful, high-fidelity light as all Ketra luminaires.

Customizable lengths

- Specify lengths from 10" to 96"
- Available in 1" increments

Connect as needed

- Order the appropriate endcap option for your installation:
 - Straight end-to-end connector for linear runs
 - Flexible connector for corners and angles
- Field-wired jumper cables are available for bridging larger gaps.

System flexibility

- Choose the best style for your application:

Luminaire Options	Lumen Output	Delivered Output	Max. Run Length
Long Run	200 lm/ft	59 lm/W	24 ft
Uniform Lens	250 lm/ft	45 lm/W	15 ft
High Output	350 lm/ft	64 lm/W	15 ft

Create immersive experiences

Extend the Ketra experience to every layer of light with a slim, modular fixture that fits in smaller spaces.

The Ketra Difference

A Palette That Inspires

Endless possibilities and unparalleled precision define the Ketra **High Def Palette**. Choose from a wide spectrum of high CRI whites, saturated colors, and pastels with 16.7 million colors at your fingertips.

Vibrant, Dynamic, & Limitless

The Ketra **Dynamic Spectrum** allows you to tune the perfect light for every moment. Follow the natural rhythm of daylight, warmly dim down to 0.1%, or turn the dial up on vibrancy to completely transform artwork, making vivid colors pop.

Superior Optics for Uniform Light

Place light precisely where you want it—and nowhere else. Ketra **TruBeam** combines an emitter and other optics to produce the maximum range of beam spreads, while maintaining uniform color and intensity.

Precision Color for Life

With other LED solutions, colors can degrade over time—or mismatch if LEDs are sourced from multiple manufacturers. Ketra **Color Lock** aligns color points across individual light sources, actively preserving accurate, beautiful hues for the life of the light.
