WIDE GAMUT

CIE 1931 Color Chart

Ketra's Lightbar Slim Linear can easily be commissioned into Lutron HomeWorks or Athena systems. The product can reproduce any color point within the triangle shaped gamut indicated in the chart to the left. With Ketra's Color Lock technology, the color point is maintained to an accuracy of one-step MacAdam Ellipse over the lifetime warranty of the product and across operating temperature range.

- **Color Lock**—Color point is maintained to an accuracy of one-step MacAdam Ellipse over the lifetime warranty of the product and across operating temperature range.
- - - - **Expanded Gamut**—Color calibration is relaxed such that each product produces the most saturated color it is capable of.

LSO General Specifications
